WONDERFUL TALE OF AN ACTRESS

Struggled with Sickness and Discouragement; How Relieved.

Dayville, Killigly, Conn.—"I shall be glad to have every woman know

what I know now, after using Lydia E. Pinkham's Vegetable Compound. Although I am only 24 years old, I have suffered for the past eight years. I hated the doctors, for a doctor told me to give up the stage where I was playing with my husband.

I had bearing down pains, my health failed me, and I could not work on the stage, and wasn't able to tend my baby or even get around myself. I was always downhearted and discontented with the world, and only lived for the sake of my little girl. The doctor said to move to some quiet little town away from the noisy city, and I might be able to live and feel well, so I went to Dayville in November. At that time I was so sick I could not walk around, and my husband kept house and I stayed in bed. One day in January I read your advertisement in a newspaper, and I sent for Lydia E. Pinkham's Vegetable Compound, and started taking it. Within two weeks time I was a different woman, could get around, and felt so good that it was a pleasure to do my household work. I felt contented and happy, and now am the picture of health, and am tempted to return to the stage. We appreciate my health as the most precious thing on earth."—Mrs. H. L. KLENNETT, Box 85, Killigly, Conn.

If Too Fat Get More Fresh Air

BE MODERATE IN YOUR DIET AND REDUCE YOUR WEIGHT. TAKE OIL OF KOREIN.

Lack of fresh air it is said weakens the oxygen carrying power of the blood, the liver becomes sluggish, fat accumulates and the action of many of the vital organs are hindered thereby. The heart action becomes weak, work is an effort and the beauty of the figure is destroyed.

Fat put on by indoor life is unhealthy and if nature is not assisted in throwing it off a serious case of obesity may result. When you feel that you are getting too stout, take the matter in hand at once. Don't wait until your figure has become a joke and your health ruined through carrying around a burden of unsightly and unhealthy fat. Spend as much time as you possibly can in the open air; breathe deeply and use laxative capsules; take one after each meal and one before retiring at night. Weigh yourself every few days and keep up the treatment until you are down to normal. Oil of korein is absolutely harmless, is pleasant to take, helps the digestion and even a few days treatment has been reported to show a noticeable reduction in weight.—Adv.

HOW TO SEND A MAN TO INSANE ASYLUM

Special To The World. OKLAHOMA CITY, March 23.—An effort on the part of the insanity board of major county to commit a man to the insane asylum who had committed a crime in the county but was a resident of Alfalfa county, would not be regular proceeding in the opinion of the attorney-general's office, submitted today to M. M. Thomas, county attorney of Alfalfa county. The prisoner had been taken in custody but his trial on the charge of grand larceny has not been held. The question was put before the attorney-general as to whether or not the insanity board of Alfalfa county have the jurisdiction to commit a man to the insane asylum who had committed a crime in the county but was a resident of Alfalfa county. The issue may be raised in the case after trial is called, and inquiry into his sanity could be had then that would determine whether or not he is insane.

\$20,000 JUDGMENT AGAINST RAILROAD

Division Foreman Loses Both Eyes in Accident on Missouri Pacific.

Special To The World.

CLARKSMORE, Okla., March 23.—A suit of no little moment was decided in the district court of Rogers county today wherein the plaintiff in a \$20,000 damage suit was awarded judgment in the sum of \$20,000.

The case was captioned H. T. True, Jr., vs. the Missouri Pacific Railroad company and the Iron Mountain Railroad companies (corporations) and in the petition seeking damages it was alleged that on September 24, 1912, while the plaintiff was occupied at the task of conveying a crew of railroad workmen from Barton to Lexington, Ark., a distance of some five miles, after night, on a gasoline motor car, the car struck a cow on the railroad right-of-way, throwing True from the car and hitting his head. Medical examination revealed the fact that a small stone about the size of a grape had been imbedded in the man's skull, the wound not being thought dangerous.

However, the petition cites, on December 9, 1912, True resumed his duties as division foreman, but was constantly suffering from severe pains in the forehead, which continued until the ninth day of May, 1914, on which date the man lost the sight of the right eye, and about ten days later lost the sight of his left eye, rendering him permanently blind. Asserting that the blindness was caused from the wound received at the time of the accident on the motor car, the defendant asked for the sum of \$20,000 damages and \$1,000 for money spent in the endeavor to secure relief from the injury.

The case of the case occupied the attention of the court for a period of three days, the plaintiff being represented by Judge F. E. Riddle and William Stacy of Chickasha, while the defendants were represented by Thomas Pryor of Fort Smith, Ark., General Attorney W. L. Curtis of Shawnee and Adams & Willis of Claremore. The plaintiff's father and one doctor from Chickasha were the only witnesses called on the stand by the plaintiff, while for the defendants four physicians and 15 other witnesses from Arkansas, Illinois and other states were examined. The jury deliberated two hours, returning a verdict of \$20,000 judgment in favor of plaintiff.

MANY NEGROES IN THE HOPKINS CASE

Witnesses for Defense Directly, Contradict the State's Testimony.

Special To The World. LAWTON, Okla., March 23.—Since the noon hour the defense in the case of the State vs. George Hopkins, has been placing witness after witness on the stand introducing evidence which in many instances is in direct conflict with that introduced by the state. The long line of negro witnesses introduced by the state has been more than balanced by colored witnesses for the defense. Many of the latter gave testimony that they resided in the same house as Tom Coley and had never seen the defendant, George Hopkins, eat a meal or sleep at the Coley home.

Questions propounded by Attorney Moman Pruitt for the defense were significant of the effort of the defense to establish a conspiracy on the part of parties interested in the breaking of the will which left the property to George Hopkins and detectives, to destroy the defendant and secure the property. WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes anyone look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed in the blood, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store but is sufficient to make anyone an enthusiast on inside bathing. Men and women who are accustomed to wake up with a dull, aching head or have furred tongue, bad taste, nasty breath, slow completion, others who have bilious attacks, acid stomach or constipation are assured of pronounced improvement in both health and appearance shortly.—Adv.

HEAD A SIGHT WITH PIMPLES

Became Solid Sore Eruption Over Head and Face. Very Restless. In Three Months

HEALED BY CUTICURA SOAP AND OINTMENT

"My little brother was about two months old when an itching and a breaking out of pimples which were very bad started. He would scratch and it was inflamed and afterward became a solid sore eruption all over his head and face. We had to sit up nights with him, and he was very restless. He had to wear a cap to keep his head from sticking to the pillow. His scalp was a soft crust of dandruff. His head was a very bad sight and he was in such a fix that my mother did not know what was the matter.

"Nothing did any good, and he had this trouble about a month before using Cuticura Soap and Ointment. In about three months the eruption was completely gone and he was well." (Signed) Miss Helen E. Fleming, 1422 23d St., Columbus, Ga., July 15, 1915.
